

such other Federal Government entities as the Director determines appropriate, to submit a report to the congressional intelligence committees within 120 days of enactment of this Act, on intelligence matters relating to the Visas Mantis program, including efforts by (1) the Intelligence Community to provide and plan for effective intelligence support to such program; and (2) hostile intelligence services to exploit such program or any other program by which visas for admission to the United States are issued. The report shall be submitted in unclassified form but may include a classified annex, as necessary.

Assessment and Report on Interagency Communication Relating to Efforts to Address Anomalous Health Incidents.

The Committees direct the Director of National Intelligence to (1) conduct an assessment of how the various elements of the Intelligence Community are coordinating or collaborating with each other and with elements of the Federal Government that are not part of the Intelligence Community in their efforts to address anomalous health incidents, and (2) submit a report to the congressional intelligence committees within 180 days of enactment of this Act on the findings of the Director with respect to the assessment. The report submitted pursuant to subsection shall be submitted in unclassified form, but may include a classified annex.

Reporting on Occurrence of Anomalous Health Incidents.

The Committees direct that, whenever the head of an element of the Intelligence Community becomes aware of a report of an anomalous health incident occurring among the employees or contractors of the element, no later than 90 days after each incident, the head of the element shall submit to the congressional intelligence committees a brief report on the reported incident. The Committees further direct that this reporting requirement shall cease upon joint notice from the congressional intelligence committees to the Director of National Intelligence.

Report on Cooperation by Intelligence Agencies of Key Democratic Countries Regarding Technological Competition with China.

The Committees direct the Director of National Intelligence to submit a report to the congressional intelligence committees within 180 days of enactment of this Act, on the status of current cooperation among the intelligence agencies of key democratic countries and key partners and allies of the United States in order to track and analyze the following:

1. Technology capabilities and gaps among allied and partner countries of the United States;
2. Current capabilities of China in critical technologies and components;
3. The efforts of China to buy startups, conduct joint ventures, and invest in specific technologies globally;
4. The technology development of China in key technology sectors;
5. The efforts of China relating to standard-setting forums; and
6. Supply chain vulnerabilities for key technology sectors;

The Committees further direct that the report shall include a plan to address any deficiencies identified in the report with respect to the cooperation described in such subsection and suggested areas for increased cooperation.

STEM Technology Fellowship

The Committees direct the Office of the Director of National Intelligence, in coordination with the Central Intelligence Agency, the National Security Agency, the Defense Intelligence Agency, the National

Geospatial-Intelligence Agency, the National Reconnaissance Office, and any other relevant Intelligence Community elements, to conduct and present to the congressional intelligence committees, within 180 days after enactment of this Act, a feasibility study examining the benefits of creating a Science, Technology, Engineering, Math (STEM) fellowship for the Intelligence Community, and whether such a fellowship would help alleviate the Intelligence Community's workforce shortages and retention challenges in STEM fields. The study shall include:

1. A comprehensive assessment of the IC's current and future workforce needs in high demand STEM fields, such as data science, cybersecurity, computer network exploitation, software development, and artificial intelligence/machine learning, including:
 - a. An assessment of whether the Intelligence Community's current positions and career categories are sufficient to track and retain high demand STEM employees, and
 - b. An assessment of workforce needs by grade, category, and position descriptions.
2. An overview of Intelligence Community programs aimed at developing and recruiting new and mid-career hires in STEM fields;
3. Proposed timelines for converting fellows and interns to permanent employees;
4. Mechanisms by which the Intelligence Community could use such a fellowship or internship to address shortfalls in diversity among the workforce; and
5. An assessment of the authorities and resources required to establish an Intelligence Community-wide STEM technology fellowship.

Signed:

ADAM B. SCHIFF, *Chairman.*

Permanent Select Committee on Intelligence.
